Some may ask why a long-established and award-winning regional Sail and Powerboat dealer has its head office in the small-town tourist destination of St Simons Island, Georgia. When they realize that for most insurers, the Georgia border marks the end of the hurricane zone, it’s clear to see why the location an hour north of Jacksonville, FL, has become such a destination for Caribbean cruisers. The dealership was opened in this hurricane hole destination in the 1970s. As one of the oldest Catalina Yachts’ dealerships in the nation, Dunbar Yachts has a proud history of serving the needs of the cruising community of the Southeastern seaboard. Dunbar Yachts is an exclusive regional dealer for Catalina Yachts and Jeanneau Sail and Powerboats with a fantastic range of boats, and a large and loyal customer base. “We commission all new boats in-house ourselves,” explains Michael Bowie, one of the owners of Dunbar Yachts. “This maintains quality control, provides a significant cost advantage to our customers, and ensures that an engineer with specialist experience is working on each and every yacht. Our Service Manager has been commissioning boats in the dealership for over 30 years.” Dunbar Yachts has another advantage as the closest dealership to the impressive Jeanneau sailboat factory in Marion, SC. Members of the dealership regularly host customers for personal factory tours of the accessible Jeanneau & Catalina facilities.

Having cruised the Caribbean circuit themselves, owners Michael & Lucy Bowie are familiar with the camaraderie of cruisers and the set-up and equipment needed on their boats. As Lucy says, “We specialize in selling and setting up Yachts for cruisers, and ensuring that they retain the value in their investment. Many of our customers return year after year for upgrades and routine maintenance. We relish the opportunity to hear about their latest sailing experiences.” An additional location in Charleston, SC, and brokers based in Charlotte, NC adds to the depth of experience and client base.

Understandably, Dunbar Yachts’ brokerage portfolio is loaded with tried and tested cruising yachts. Sailors who are looking for a great cruising boat know where to find a fantastic range of suitable yachts at one destination. With a year-round American Sailing Association School, favourable finance packages, trade-in options, and revenue-generating plans, it’s easy to understand the “Dunbar Difference”.

Probably the thing I love best about what I do is being at the cusp of change in people’s lives. I facilitate people moving on to The Next Big Thing...buyers and sellers alike.

Having spent three years getting my head around selling everything and buying and refitting a boat to go sailing (I eventually ended up on a therapists couch...but that is another story...) and having spent almost two years trying to sell a boat through brokers a decade later, I am well placed to know what buyers and sellers want.

Essentially, I give my clients what I expected my broker to give me...and then some...and I am picky.

It’s really just that simple.

I have a background in the design, sales and installation of big ticket communication systems, where a knowledge based, proactive service was imperative. A lifetime spent tinkering with things mechanical, together with time spent as an apprentice aircraft mechanic before I came away, certainly helps too!

So too does the nearly forty years I have been messing about with boats of all sizes, plenty sea miles including two Atlantic crossings, the first being in 1981 navigating with a sextant and a lead line. (and Yes...we got lost.)

In the twenty five years we have been in the Caribbean, we have run charter boats, run charter boat bases, rebuilt “sunk to the bottom” hurricane destroyed vessels and project managed teams of workers refurbishing private and charter vessels...and bought and sold boats for our own account.

The brokerage was the next logical step...and we understand silver service!

Ask around...you will probably like what you hear...

Being part of The Moorings team, our brokers also have resources at their disposal to aid you in every aspect of the purchasing and selling process. Items such as transportation, accommodations, dockage, insurance, financing, and delivery, are examples of the areas where Richard and Giles can be invaluable assets to both buyers and sellers. When purchasing or selling a yacht through one of our brokers, you will not only be dealing with professional and licensed brokers on site, but also have the security of dealing with a publicly traded and bonded company that has offices globally.

Come meet Richard Vass (Tortola). He first moved to the British Virgin Islands twenty years ago, working for both Sunsail and The Moorings during this time. Richard’s family are keen sailors and his introduction to yachts began at an early age. Drawing on his knowledge of charter yachts, passion for sailing, and his local knowledge, you’ll find Richard a friendly chap who is happy to explain the brokerage process as well as help you find your dream yacht. He has 22 years of experience in the yachting industry. Most of these years were spent working with The Moorings and Sunsail between the Mediterranean and the Caribbean. In 2004 Richard joined the Moorings Brokerage Team and has been an asset not only to his many buyers and sellers, but also to the whole Moorings Team.

Giles Wood’s (Tortola) first memory of sailing was sitting on the bow of a dinghy when he was about 5, while he sailed around the bay with his Dad. He has been sailing ever since. Studying engineering at university, he worked as a sales manager selling classic and sports automobiles before turning back to the water. He is qualified RYA Yachtmaster Ocean Instructor and has been around the world skippering, racing, teaching and brings his enthusiasm for sailing to the brokerage. His hands-on knowledge and experience is a great asset when looking for the right boat or getting onboard once you have found it.
The Multihull Company prides itself on bringing sailing dreams to life. Our highly trained brokers know what multihull designs and construction will work for you, which ones won’t, and we are not afraid to tell you the truth because we want the best for you.

We understand the needs of every type of multihull sailor, from coastal cruisers to world voyagers, offshore racers to liveaboards. Our team knows the pros and cons of every major production model ever sold, has attended multihull surveys around the world, and is skillful at counseling clients on finding resolutions for “after-survey” issues.
